

Have you always wondered what it would be like to dive but you are

Not scuba qualified?

Why not try scuba in a pool environment and learn some of the key skills under the supervision of a qualified instructor? You can do this in the PADI*

Discover Scuba Diving Program

This is a PADI program and requires the participant, under the supervision of a qualified instructor, to complete a brief knowledge review about safety rules and basic skills before moving on to practical pool activities.

"What will you learn?"

You will learn the basic safety guidelines and skills needed to dive under the direct supervision of a PADI Professional. Get ready to:

- Go over the scuba equipment you use to dive and how easy it is to move around underwater with your gear.
- Find out what it's like to breathe underwater.
- Learn key skills that you'll use during every scuba dive.
- Have fun swimming around.
- Hear about becoming a certified diver through the PADI Open Water Diver course.**

"There's nothing wrong with enjoying looking at the surface of the ocean itself, except that when you finally see what goes on underwater, you realize that you've been missing the whole point of the ocean. Staying on the surface all the time is like going to the circus and staring at the outside of the tent."
