

Have you ever considered

How would you assist a diver in distress?

During your Open Water and Advanced Open Water courses, you concentrated on your skills and how you should conduct yourself safely underwater. Give consideration to stepping up your skills so you are able to assist other divers who might get into difficulties. This course is a major step forward for any diver; rather than just being able to help yourself, as a Rescue Diver you will be trained to help others.

I guarantee small training groups of maximum six students. Call me to reserve your place on a

PADI Rescue Diver Course

What will you get?

The PADI Rescue Diver Course includes:

- Home-based learning at your own pace in your own time
- PADI Rescue Diver Manual and DVD for you to keep for future reference
- Classroom Knowledge Reviews and Exam over 1 weeknight
- Preparation of an Emergency Action Plan for your favourite dive site
- Self Rescue Review, 10 rescue exercises and 2 rescue scenarios over 2 days

Your course fee includes:

- Dive gear use - includes cylinders as required, (excludes mask, snorkel, booties and fins)
- A pocket (rescue) mask for you to keep
- Air refills for open water day #2

When: Weeknight as agreed from 6:30pm; Saturday and Sunday from 8:30am

Where: Classroom - Adelaide city (free parking), Open Water at Pt Noarlunga

Cost: **\$260** for AUSC members. \$260 for AUSC non-members with all own gear

Bring: Your own dive gear – call Tim to discuss anything you require

How: Contact Tim Brown* at yellowfins@iprimus.com.au or 0488 990 298

Required: Rescue Diver students must hold a current CPR & First Aid certificate(s)

"Staying on the [ocean] surface all the time is like going to the circus and staring at the outside of the tent."
